

Farsight DNSDB Scout™ v1.0

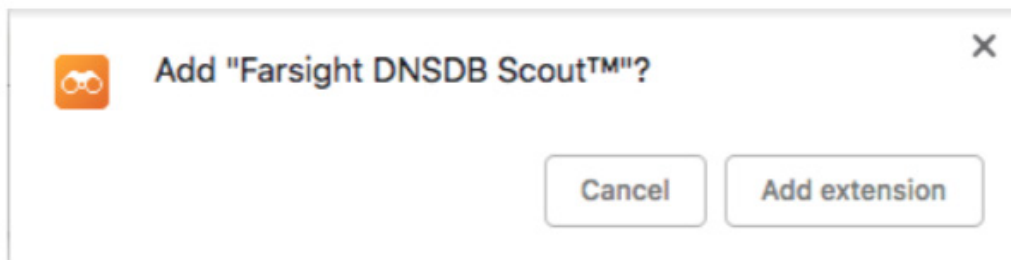

User Guide

How to install the extension

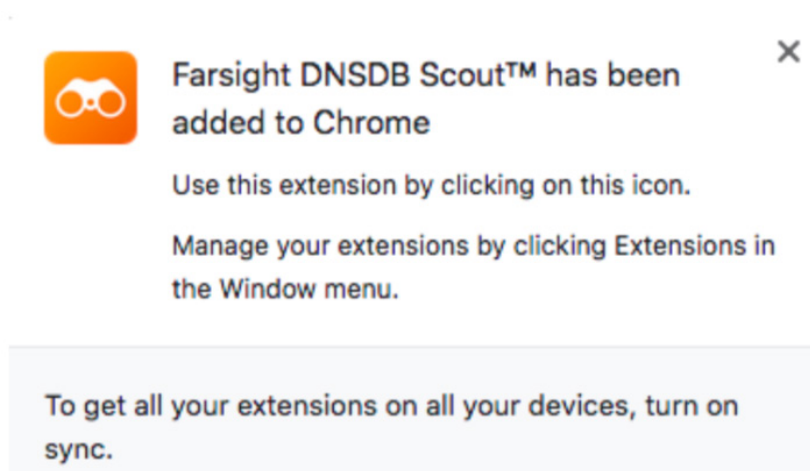

1. Go to the Farsight DNSDB Scout™ Chrome Web Store page.

2. Click the blue 'Add to Chrome' button.
3. Click the 'Add Extension' button when the permissions prompt appears.

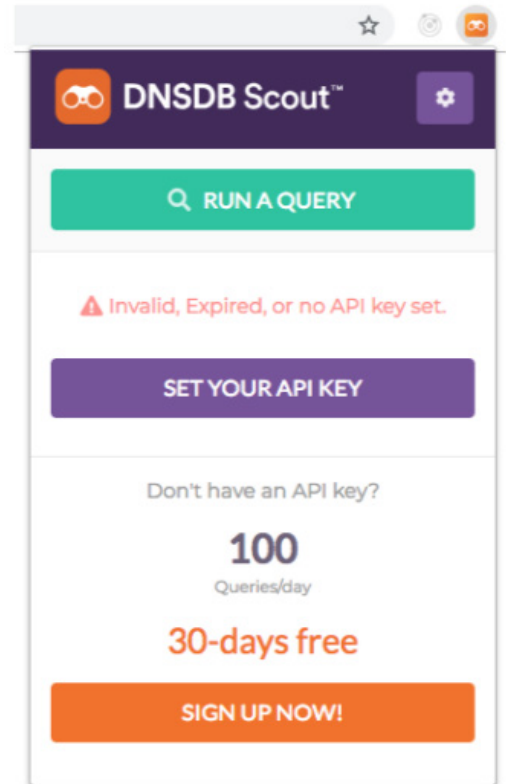

When successfully installed, the extension will be listed alongside your other extensions and the extension icon/button will appear in the top right-hand corner of the browser window.

How to add or reconfigure your API Key:

1. Open the extension by clicking the Scout icon in the top right-hand corner of the browser window.
2. If an API Key hasn't been set yet, click the purple 'Set your API Key' button. If you've already set one and need to set a different one, click the 'Settings' cog button.
3. Now on the settings page: In the API Key field, enter your API Key and then click the green 'Save API Key' button.

If your API Key is valid then the following message will appear: *Your API Key has been saved. You can now make queries from the Dashboard.*

If your API Key is not valid then the following message will appear: *Invalid, Expired, or no API key is currently set.*
